they produce the true deep corrugated profile for their tanks. The traditional deep profile ensures maximum strength when compared to some modern low profile spiral style tanks.

Extra Wide sheets

Their in house roll forming operation produces an extra wide 14 corrugation sheet. While others need to use 3 sheets to manufacture the typical 1800 tall tank they do it in two. This makes for a stronger tank with less seams.

Assembly methods

They employ industry leading assembly techniques including Henrob self piercing riveting system and CNC controlled lock seaming. They have blended these modern systems with their long proven tank making experience. They still have some guarded "tricks of the trade" which ensure a well finished and long lasting tank is produced.

Warranty

Their warranty is the best in the industry. Twenty years corrosion warranty and a full ten year construction warranty.

The young Iraqi is very upset.. 'What can I say mum, I'm so sorry.'
'Sorry? You're sorry?' says his mum, 'It's your fault we moved to Redfern in the first place!

A man placed some flowers on the grave of his dearly departed mother and started back toward his car when his attention was diverted to another man kneeling at a grave. The man seemed to be praying with profound intensity and kept repeating, "Why did you have to die? Why did you have to die?" The first man approached him and said, "Sir, I don't wish to interfere with your private grief, but this demonstration of pain is more than I've ever seen before. For whom do you mourn so deeply? A child? A parent?" The mourner took a moment to collect himself, then replied, "My wife's first husband."

A wife asked her husband: "What do you like most in me, my pretty face or my sexy body?" He looked at her from head to toe and replied: "your sense of humour".

HANDY HINTS

- Place an empty paper bag over an electric light globe before removing it from its socket. If the globe should shatter, the bag will hold the pieces and avoid what could be a nasty accident.
- **Brighten chrome by rubbing over with plain flour. Otherwise, use a cloth dampened with ammonia. Wash off and polish with a clean cloth.**
- Remove old paint from window glass by rubbing with heated, undiluted vinegar. This will soften the paint enabling you to remove it and clean glass as normal.
- **Brighten up a porcelain bath which has yellowed, by rubbing with a solution of salt and turpentine.**
- Windshield wipers will work more effectively if you clean them. Use a solution of vinegar and water and a soft cloth to clean them.

Have you heard?

Russel Crowe flies to Baghdad to watch a young Iraqi play rugby league, is suitably impressed and arranges for him to come over to South Sydney .

He's signed to a one-year contract and the kid joins the team for the pre-season.

Two weeks later Rabbits are down 10 nil to Easts with only 10 minutes left.

Coach Bas gives the young Iraqi the nod and he goes in. The kid is a sensation - scores 3 tries in 10 minutes and wins the game for South Sydney ! The fans are thrilled, the players and coaches are delighted, and the media are in love with the new star.

When the player comes off the ground he phones his mum to tell her about his first day of Australian Rugby League.

'Hello mum, guess what?' he says. 'I played for 10 minutes today, we were 10 nil down, but I scored 3 tries and we won. Everybody loves me, the fans, the media...

'Wonderful,' says his mum, 'Let me tell you about my day. Your father got shot in the street and robbed, your sister and I were ambushed, raped and beaten, and your brother has joined a gang of looters, and all while you were having such great time.'
